India-France Strategic Partnership

people contacts and institutions. The *Alliance Française* in India is testament of the influence of French culture and language in India. The *Auroville* in Puducherry is yet another icon of India-France spiritual convergence. Started by 'the mother', a devout devotee of Sri Aurobindo, the centre continues to be a hermitage for people seeking spiritual pursuit.

All these years, there have been regular exchanges of visits between the two countries at various levels. President Mr. Emanuel Macron participated in the G-20 summit hosted by India in New Delhi in September last year and held bilateral discussions with Prime Minister Shri Narendra Modi on various issues. Earlier, Prime Minister Shri Modi met President Mr. Macron on the sidelines of G-20 Summit in Bali in 2022. The two leaders share a chemistry of warmth and bonhomie. In addition to personal meetings, Prime Minister Shri Modi and President Mr. Macron have reached out to each other through tele-conversation to share their thought process on issues of concerns to both the countries. What is significant is that during the pandemic, Prime

Minister Shri Modi and President Mr. Macron, through telephonic conversation, discussed cooperation to fight the COVID-19. In a letter, President Macron thanked Prime Minister Shri Modi for India's decision to lift export bans on life saving drugs such as paracetamol, which was exported to France when it was in the midst of the first wave of the pandemic. President Macron expressed solidarity with India in fight against COVID-19 by providing medical equipment and technical expertise. Prime Minister Shri Modi virtually addressed the Paris Peace Forum on the theme "Bouncing Back to Better Future" in November 2020.

The two countries also have an annual Strategic Dialogue mechanism. The last meeting was held in January last year. The dialogue was co-chaired by India's National Security Adviser Shri Ajit Doval, and his French counterpart Mr. Emmanuel Bonne, the French President's Diplomatic Adviser, who also met Prime Minister Shri Modi and External Affairs Minister Dr. S. Jaishankar. During the strategic dialogue and meetings the two countries reiterated their commitment to take forward their

strategic partnership to ensure peace, stability in the Indo-Pacific in sync with rule based international order. Discussions were also held on the conflict in Ukraine and its impact on the global economy. Prime Minister Shri Modi in his meeting with Mr. Bonne highlighted the close cooperation between India and France.

The two countries have also initiated a trilateral cooperation mechanism with like-minded partners in the region. First such trilateral meeting was held with Australia in September 2020 and the second was held with the United Arab Emirates in February 2023. Also, through a unique model of Triangular Development Cooperation, India and France aim to work on setting up the Indo-Pacific Triangular Cooperation (IPTDC) Fund with the objective to support climate and SDG focussed innovations and start-ups from third countries of the Indo-Pacific.

An important aspect of the Strategic Partnership between the two countries is the defence cooperation. In terms of defence technology, France has earned a good name and it is a welcome sign that France has come forward to offer advanced defence technology to India. France is offering India the state

of the art technology. At a time when India is modernising its defence production as per Prime Minister Shri Modi's vision of *Atmanirbhar Bharat*, India-France synergy is poised to open vistas of cooperation and collaboration. Considering the fragile security environment in India's neighbourhood and also in the Indian Ocean Region, the need to scale up India's defence capability can hardly be over emphasised. France has already delivered 36 Rafale fighter aircrafts which has added sinews to Indian Air Force. France is also supplying 26 maritime version of Rafale-M. India and France hail the success of the first Scorpene submarine construction programme. France is also a member country of International Solar Alliance, an Indian initiative of developmental partnership for clean energy.

To commemorate the 25th anniversary of the Indo-French partnership, both countries have agreed to a roadmap to set the calendar for the bilateral relationship up to 2047, which will celebrate the centenary of India's independence, the centenary of the diplomatic relations between the two countries and 50 years of strategic partnership. France is poised to play a very significant

role in realising Prime Minister Shri Modi's dream of making India a developed nation or *Vikshit Bharat* by 2027.

Question: The Ministry of Education and the Election Commission of India have joined hands for voter education and electoral literacy in schools and colleges. What other measures do you suggest for making the young electorate more participative and responsive?

Shazia Siddiqui

New Delhi

The collaborative efforts between the Ministry of Education and the Election Commission of India to enhance voter education in schools and colleges represent a crucial step towards cultivating an informed and active young electorates. To further bolster the participation and responsiveness of the young voters, a multifaceted approach is recommended. Firstly, there is a proposal to integrate civic education into the standard school curriculum. This ensures that the students acquire a foundational understanding of the political system and significance of voting apart from and their rights and responsibilities as citizens. Interactive workshops and seminars with experts, political leaders and Election Commission representatives are suggested to engage students in discussions about the electoral process and political issues thus fostering a deeper understanding among them. Organising mock elections within educational institutions provide practical experience, demystifying the voting process and making young voters more comfortable with it. Beyond the classroom, community engagement programmes and partnerships with youth organisations aim to connect students with local issues, instilling a sense of responsibility towards their communities. Peer-to-peer initiatives, where senior students mentor younger ones on civic responsibilities, which will create a culture of active citizenship within educational institutions. On a broader scale, strategies include involving youth in all phases of voter education campaigns, implementing multimedia strategies to capture youth attention by engaging them in advisory boards and electoral roles, other steps include to facilitating youth-led national councils, inviting youth groups to national parliaments, initiating internship schemes and supporting young members of parliament. This comprehensive approach endeavours to create an informed, engaged and participative young electorate, thus fortifying the pillars of a healthy democracy in India.
